

Challenges

- IP restricted login for admins and moderators
- Wanted audit trail
- Maintaining ODI and state standards around data security and privacy
- Moderator training and confidence
- Uncertainty about volume and bad actors
- We have never done this before!

Solutions

- Worked with DGS for moderator access
- No email addresses in the export
- Anonymous, machine-generated usernames
- Geofencing to US only
- Used Coda to track moderation actions
- Data reports to plan moderator and invitation schedule
